Sensational Snacks

A food dehydrator lets you make healthy foods at home like crunchy green beans or dried sweet potato sticks. Have a sweet tooth? Banana chips or dried apples with cinnamon are the perfect fix. And since the fruits are not bogged down with additives or preservatives, their natural sweetness shines.

Dehydrating Fruits and Vegetables

Preparing your favorite fruits and vegetables is simple. For best results, use produce that is in season to capture vibrant flavors and enjoy them for months to come. When your selections are made, just wash and slice. Cut your foods to the same thickness, size and shape to obtain consistent results.

Simple Design

The Hamilton Beach® Food Dehydrator's continuous airflow feature provides even drying, eliminating the need to rotate trays. Once you've lined the trays and adjusted the temperature and timer, there is nothing to do until the timer goes off. However, if you like to watch, the clear lid allows for easy viewing.

A Little Time Reaps Big Rewards

Foods may take a few hours to dehydrate, but they can be enjoyed for months. When stored correctly, dried fruits can keep up to a year and vegetables can last six months. Even beef jerky can last up to two months at room temperature in an airtight container. What are you waiting for? It's time to fill your pantry with nutritious snacks for the whole family.

Make Fruit Rolls at Home

Turn your favorite fruit into a delicious, on-the-go treat by creating your own fruit rolls. Fresh, canned and frozen fruit can be pureed for this simple concoction. Higher pectin fruits such as apples, apricots, blueberries, grapes, peaches, pears, pineapples and plums work best for rolls with a nice leather-like texture. Other favorites such as grapefruits, oranges, strawberries, and raspberries can be used when combined with higher pectin fruits.

Drying Garden Herbs

Enjoying garden herbs doesn't have to be limited to a few months a year. Capture the fragrance and flavor of fresh basil or rosemary by drying them for year round use. To prevent smaller leaves from dropping through the trays, a special mesh screen is included for optimum results.

Dimensions (inches): 11 H x 13 W x 10.5 D
