Weekday mornings are usually rushed. Cereal, yogurt or toast to go is about the best most of us can do for breakfast. But the weekends are different. Take a few minutes to enjoy a meal and make it special with homemade Belgian style waffles. Crunchy on the outside and soft on the inside, served with a little bit of melted butter and maple syrup, it's a delicious way to start the day.

Homemade or store bought batter cooks to a golden brown on the easy to clean nonstick grids. Just wait for the Ready light to come on, and then add the batter. In 4 to 5 minutes, you'll have two delicious waffles hot and ready to serve.

When finished, the nonstick grids clean up with a simple wipe down. Compact, upright storage allows the waffle maker to fit easily into the cupboard or pantry ...now that's Good Thinking®.

### Fun and Flexible

We all love waffles with butter and syrup, but there are many more options. Waffle recipes go from basic to gourmet. Try recipes for pumpkin, berry or chocolate waffles. Or, jazz up plain waffles by topping with whip cream, fresh fruit or apple butter.

The Belgian style grids are made with a non-stick surface for easy removal and cleanup.

### TEST KITCHEN TIP:

Make a few extra waffles to enjoy any day of the week! Most of us don't have time to make homemade waffles every day, but waffles store easily in the refrigerator or the freezer. Just let them cool before packing in an airtight container. When you're ready to enjoy them, simply reheat in the microwave, toaster, or regular oven.

## PRODUCT USES & UNIQUE FEATURES

### Flips Waffles Like the Restaurants Pros

With a little flick of the wrist, The Hamilton Beach® Flip Belgian Waffle Maker lets you effortlessly bake, make and flip perfect waffles just like a gourmet restaurant chef. Best of all, the adjustable browning control makes waffles golden brown and crispy on the outside and meltingly tender on the inside. To cook waffles like the best restaurants do, simply preheat the waffle maker until the READY light comes on. Then, pour in waffle batter and flip to lock in place. Waffles are done in 5-8 minutes, depending on the setting and the recipe. Using an oven mitt, flip the waffle maker back and open the cover to a perfect waffle.

### Makes Delicious Waffles 12 Different Ways

If you're craving the sweet and mouthwatering taste of a waffle, but can't decide the flavor or ingredients, you're in good company. The Hamilton Beach® Flip Belgian Waffle Maker fits you like a glove. Its deep-grooved waffle grid design is built to handle any type of batter you pour in. Simply choose your recipe and it will handle the rest – effortless flipping, fast, even cooking and browning control.

### Mix In Your Favorite Toppings & Spices

Don't care for plain waffles or need a snazzy new breakfast recipe? Tasting is believing with Hamilton Beach. To mix things up, reduce the amount of batter that you're using and stir one of these sweet treats into the batter before cooking:

- Chocolate
- Maple syrup
- Cinnamon sugar
- Maple butter
- Pecans or walnuts\*
- Chocolate chips
- Covered raisins

- Fresh or dried fruit
- Blueberries

\*TIP: If using nuts in waffle batter, use chopped nuts and/or evenly spread batter to allow lid to fully close.

### **Breakfast Trend On the Rise**

Breakfast isn't called the most important meal of the day without good cause. Jumpstarting your day with a nutritious breakfast has shown to improve mental performance, give you energy and healthy carbohydrates, and help reduce mindless snacking. What's more, where breakfast is prepared and bought has changed over the years. Instead of traditional breakfast meals and times anymore, consumers are now having breakfast at all times of the day, reinterpreting breakfast foods in creative ways and cooking at home.

"Most consumers are making their breakfast at home both during the week (90%) as well as on weekends (84%)?" \*

\*Source: Mintel "Breakfast Entrees and Sandwiches," US Nov. 2010.

### **Simple Cleanup**

The removable waffle grids are dishwasher safe. To clean the drip tray, rinse off excess overflowed batter with hot water. For easy cleanup and storage, wipe down the exterior with a damp, soapy cloth and fold the handle. Do not use steel wool, scouring pads, abrasive cleansers or sharp or pointed objects on any part, as this will tarnish the steel exterior.

### **COOKING TIPS**

Before pouring batter into grids, always spray them with a small amount of nonstick cooking spray. Waffle color and crispiness are determined by the temperature of the grids, so the higher the temperature, the browner and crisper the waffle. If the cover of the waffle maker doesn't lift up easily, let your waffle cook a little longer before lifting the lid again. To store waffles for later reheating, pack in airtight container and keep in the refrigerator or freezer.

Dimensions (inches): 9.06 H x 9.9 W x 14.88 D
